Languages

French

English

I can communicate effectively and hold a conversation on almost any subject.

Assets

calm

I am a very calm person and rarely get angry.

Interests

Sports

Especially sports like skiing and wakeboarding.

cooking

I really enjoy cooking, and that's why I worked for two summers in a restaurant.

Paul Ferran

C++, Unity and Unreal Engine Developer

Motivated C++, Unity, and Unreal Engine Developer currently looking for an internship to apply and further develop my programming and game development skills. Eager to learn and grow in a professional environment, I am excited to contribute to innovative projects and gain practical experience working as part of a team.

Education

Baccalaureat

From September 2019 to June 2022 [Lycée Saint-Joseph](#) Thônes

Licence

Since September 2023 [Gaming Campus](#) Lyon

Work experience

cook

From July 2024 to August 2024 [Le Bistrot Alpin](#) Bourg-Saint-Maurice
I worked as a cook over the summer as a student job, which taught me how to communicate effectively in a team and work well under pressure.

pizza chef

From July 2025 to August 2025 [Le Beluzza](#) Lyon
I worked in a pizzeria this summer as an extension of my passion for cooking.

Skills

Dev in C++ and C#

I developed strong skills in C++ during my second year at school, where we worked exclusively with this language. This year, I also gained practical experience in C# and C++ through game development projects using Unity and Unreal Engine.

Computer skills

Unity

I used Unity during the first semester of this year and developed several small games over the course of the semester.

Unreal Engine

I learned the basics of Unreal Engine at the beginning of the semester. However, because of a larger Unity project later this semester, I will not have many more opportunities to use it.
